Very nice enjoy receiving these....a little advice, put your portfolio statements in the file drawer and don't peek. We are all in the same boat as are the financial wizards in charge of getting us out of this mess so they have a vested interest in setting things right. The press is like an uncaged wild animal, every bit of horrible news they put it out there. Anyway stay strong.....

Howard,

This newsletter was particularly great, not to demean the others!

FYI...We charge \$50 for insurance on any item regardless of price. That covers mid estimate presale and full price post sale.

You should write for Art and Auction and the New York Times.

Cheers,
